Parents: Getting Started with Remind

What is Remind?

Remind is a communication tool that can:
- Provide messaging between educators, students, and families to promote communication and engagement
- Allow parents and families to choose their preferred messaging tool - email, app, or text
- Allow voice calls to take place between teachers and parents without the exchange of personal information
 This is my answer

Your Remind Account

Remind accounts are generated from the information in Skyward (our student information system). The email address that you have listed there is the one that will be used for your Remind account.
If you have previously used Remind with a different email, a phone number, or the app, you will want to link those accounts (see directions below).

Getting Started

1. Go to https://www.remind.com/?sign-up=true
2. Parents: Enter the email address you have listed in Skyward.
   Remind will send a code to that email, which you will then type in

Enter your code

To confirm your account, enter the 4-digit code
sent to gafe-test-12@students.osd.wednet.edu

0000

Didn't receive a code? Send again

Continue

By signing up, you agree to our **Terms of Service** and **Privacy Policy**.

3. Complete the account setup directions. Be sure to add your phone number if you would like to receive notifications through text messaging.
   If Remind does not allow you to add your phone number: submit a ticket to Remind asking them to link that phone number to your account

Additional Help/Guides:
- Changing Notification Preferences
- Combining Multiple Remind Accounts
- Opting out of Remind Messages
